

## Pace Students Win Gates Millennium Scholarship

For the first time, not one but two students from Monsignor Edward Pace High School have received recognition as Gates Millennium Scholars. The

Gates Millennium Scholars Program (GMS) attracts an average of 20,000 applicants per year, and this year, Gamal Hyppolite and Christina Amanambu were two out of the 1,000 students chosen for this

honor. This scholarship award is given to students who excel in

leadership, community service, and academic achievement. Funds will be given to these students to attend any U.S. accredited college or university of their

choice. If they follow the GMS guidelines, their scholarship funds are renewable. This program offers resources in addition to scholarship funds such as leadership conferences and a mentoring program. Online resources are also available. Gamal and Christina have dedicated their years at Pace academics and the overall betterment of their community. Pace hopes to repeat this exceptional accomplishment next year.
